

Answers In Creation Dinosaur Curriculum

Test 3

1. This four foot long dinosaur lived about 150 Ma, and it fed on lizards, which are found in the remains of its stomach cavity. It was also featured in the Jurassic Park films. Name this dinosaur.

2. This dinosaur was the first non-avian dinosaur to be found with feather impressions, and the first one where coloration has been determined.
 - a. Herrerasaurus
 - b. Compsognathus
 - c. Sinosauropteryx
 - d. Coelurus
3. This dinosaur grew to about 8 feet in length, and lived from 153 to 150 Ma, during the Kimmeridgian Age of the Jurassic Period.
 - a. Coelophysis
 - b. Coelurus
 - c. Compsognathus
 - d. Struthomimus
4. The skull of this dinosaur has never been found, except for a possible section of the lower jaw.
 - a. Sinosauropteryx
 - b. Coelurus
 - c. Giganotosaurus
 - d. Albertosaurus
5. This theropod lived at the same time as the herbivore Stegosaurus. In fact, it thought Stegosaurus tasted pretty good. Who was this large theropod?
 - a. Giganotosaurus
 - b. Allosaurus
 - c. Acrocanthosaurus
 - d. Ceratosaurus
6. The fossils from this dinosaur are found in North Africa. Despite its large size, it is believed that it was semiaquatic. Living from 106 to 93.5 million years ago, he is...
 - a. Majungasaurus
 - b. Carcharodontosaurus
 - c. Allosaurus
 - d. Spinosaurus

Test 3 Lessons

Lesson 13 – Spinosaurus
Lesson 14 – Allosaurus, Part 1
Lesson 15 – Allosaurus, Part 2
Lesson 16 – Carcharodontosaurus
Lesson 17 – Acrocanthosaurus
Lesson 18 – Giganotosaurus
Lesson 19 – Coelurus
Lesson 20 – Compsognathus
Lesson 21 – Sinosauropteryx

7. This dinosaur has the largest estimated skull size of any theropod.
- a. Spinosaurus
 - b. Gigantosaurus
 - c. Acrocanthosaurus
 - d. Allosaurus
8. Allosaurus fossils have been found primarily in which geologic formation?
-

9. The largest theropod dinosaur is
- a. Gigantosaurus
 - b. Spinosaurus
 - c. Tyrannosaurus
 - d. Acrocanthosaurus
10. This theropod had a row of tall neural spines on the vertebra of the neck, back, hips, and upper tail, although it was not related to the more famous Spinosaurus.
- a. Acrocanthosaurus
 - b. Carnosaurus
 - c. Coelophysis
 - d. Majungasaurus
11. This dinosaur reached lengths of up to 40 feet, and weighed in at 16,000 lbs. He lived from 100-93 million years ago during the Cretaceous.
- a. Allosaurus
 - b. Gigantosaurus
 - c. Acrocanthosaurus
 - d. Carcharodontosaurus
12. Go back in time 100 million years, to the region of North Africa. To prevent you from becoming a meal, you would have to avoid two of the dinosaurs of this section. Which two?
-

13. This dinosaur's fossils are found in rocks that date from 155 to 145 million years ago. This dinosaur reached lengths of 32 feet, and weighed about 5,000 lbs. He is...
-

14. The remains of this dinosaur were found in the lithographic limestones of Germany and France.
- a. Compsognathus
 - b. Spinosaurus
 - c. Coelophysis
 - d. Acrocanthosaurus

15. This dinosaur lived in the United States region during the Cretaceous Period, from 116 to 110 million years ago. Reaching a length of 38 feet, this dinosaur is...

- a. Allosaurus
- b. Giganotosaurus
- c. Acrocanthosaurus
- d. Spinosaurus

16. This little dinosaur lived in the region that is now China. It reached a length of only 39 inches, and weighed 5 to 6 pounds. Its remains are in rocks that are 124.6 to 122 Ma. It is...

17. The fossil-rich area of Argentina was the home for this 43 foot long giant theropod. Found in rocks that date to 97 million years ago, this dinosaur is

18. This dinosaur, at 3 feet in length, was possibly the top predator in its environment, as no other dinosaur fossils have been found in rocks associated with it.

- a. Acrocanthosaurus
- b. Coelophysis
- c. Compsognathus
- d. Coelurus

19. _____ is named after its characteristic teeth, which were not recurved, and were almost bilaterally symmetrical but with convex edges. The name in Greek means "jagged or sharp teeth lizard."

20. Due to the abundant number of fossils, scientists have estimated that Allosaurus reached full size at about 15 years of age, and lived from 22 to 28 years.

- a. True
- b. False
